

HAMIDI®

The image features a decorative border at the top and bottom, consisting of a repeating pattern of stylized Arabic calligraphy in a light orange or gold color. The calligraphy is elegant and flowing, typical of traditional Islamic art. The central area of the image is a solid, light cream or off-white color, providing a clean background for the text.

The art of Oriental fragrances merges into the intricacy of flacons birthing a luxurious line of crafted scents that elates your mood and speaks to your soul. The eclectic range of exclusive lines commemorates the rich culture of Arabs while preserving their heritage.
